Public Health Awareness Month!

Public health awareness involves promoting healthy lifestyles, researching disease prevention, and responding to infectious diseases. It begins with raising public awareness.

Local: *Four Corners Health Department* serves four counties: Butler, Polk, Seward, and York. Four Corners mission to "promote health, prevent disease and protect the environment, improving the health of the Four Corners community." The department has grown to include health surveillance, public health nursing services, medication assistance, emergency preparedness planning, pandemic preparedness, car seat fitting stations, bicycle safety, cancer control coalition, and many other health promotion, prevention, safety, and preparedness activities.
